Re: Donner Summit Sewer Upgrade and Expansion

Donner Summit Area Association (DSAA) strives to represent the people of the historic Donner Summit Area Community for the preservation of the area's rugged mountain character and natural resources by providing active coordination for community development issues.

As a result of the mandate from the Regional Water Quality Board, the sewage plant owned by DSPUD which serves DSPUD customers and SLCWD customers must be upgraded. This upgrade will utilize proven technology, meet the challenges of processing sewage at high altitude and improve plant efficiency.

At its annual meeting the membership of DSAA voted unanimously to support the creation of the necessary tax entities in both DSPUD and SLCWD formed to finance the new sewage plant.

DSAA appreciates the DSPUD's and Sierra Lakes County Water District's efforts to handle the area's effluent in a responsible and technologically forward looking manner.

Sincerely,

Tamara Lieberman  
President
